

Match Report: Round 10

Kiama faced a tough task on Saturday afternoon in coming up against Uni celebrating their 50th anniversary in Illawarra Rugby. The Uni boys came out fired up and played a near perfect 20 minutes to blow Kiama out of the game. After being down by 4 tries Kiama finally switched on to limit Uni's scoring opportunities while posting a number of tries themselves. Special mention to Sam Faiers, the second best looking male in the Faiers family, he scored his first try in 5 seasons of rugby with Kiama. Despite scoring a couple of quick tries, Kiama could do little to stop the Uni juggernaut to end up going down 61-33. The scoreboard didn't reflect the effort the Kiama boys put in. Great efforts from Mitch Spackman and Paul Glover really dragged Kiama back into the game.

Second grade was the shining light for Kiama as they managed to spoil Uni's day with a nail-biting 17-14 win over the second placed team. A great start from Kiama saw them shoot out to a 17-0 lead including tries to Joel McCabe and Alex Dunster. Paul Annett had an amazing game characterised by straight hard running and workman like defence. Matt Yates also had a great game causing the opposition trouble in the line-out all day and with some bone-crushing defence. The second half was a different story with Uni having all the running and the referee firmly behind. The Kiama boys held tough to finish the game on top. Send your thoughts out to Stevie Rae, suffering a horrific ankle injury in the last seconds of the game.

Third grade had a great start to the match in posting first points. A great bit of enterprising play saw fullback Kurt Jessop scoot over out wide in what could possibly be the try of the year. Not to be outdone by his older brother young Nick Dunster had a great game in both attack and defence showing that he has got a bright future in the black and white of Kiama. James 'Tronc' Siggee had a strong game up front showing great fitness to keep going all day. Kiama ended up going down to a young and athletic Uni side 47-8.
